

MODE OH ILLEMAAT MIBUFOR

Strings *of* Affection

President's Note

Rotaract has been a game-changer in my life, providing me with connections and bonds that I never thought possible. Through this incredible organization, I've formed lifelong friendships that have become my support system, my confidants, and my partners in growth. Rotaract has not only helped me develop meaningful relationships but also empowered me to become the best version of myself. It has given me the platform to discover my passions, develop my skills, and pursue my dreams with confidence. I'm forever grateful for the opportunities Rotaract has provided me, from leadership development to community service, and from networking to personal growth. This organization has instilled in me a sense of purpose, resilience, and determination. Rotaract has given me the most precious gifts – unforgettable memories, lifelong friendships, and a sense of belonging. It has made me shine brighter, speak louder, and dream bigger. I'm thankful for every moment, every experience, and every person I've met through Rotaract. It's more than just an organization; it's a family, a community, and a catalyst for growth. I'm honored to be a part of this amazing journey and can't wait to see what the future holds!

Editor's Note

As a newcomer to Rotaract, I was unsure of what to expect, but what I found was a warm and welcoming community that instantly made me feel at home. Even though I'm new, the friendships I've begun to build already feel like they have the potential to grow into something special, like a family. The support, camaraderie, and genuine care from everyone have made my introduction to Rotaract an unforgettable experience. I'm excited to see where this journey takes me and to create lasting memories with such incredible people.

Joining Rotaract has been like opening a door to a new world of opportunities and connections. As a new member, I'm still in the process of building bonds, but what stands out to me is how welcoming and supportive everyone has been. It's encouraging to know that I'm surrounded by people who are not just members but are becoming friends I can count on. This journey of finding my place within the Rotaract family is just beginning, and I'm eager to see how these relationships will grow and evolve over time.

Rotaract has introduced me to friendships that have become an integral part of my life. Through shared experiences, teamwork, and countless hours spent on projects, I've formed connections with people who inspire and support me. These bonds go beyond just working together—they've grown into lasting friendships that make my Rotaract journey truly special.

The most special moment in my Rotaract journey so far has surely been 4th April 2024, the day when I was announced a joint secretary for the Rotaract club of Bombay Mid-Town, that day has completely changed my point of view of Rotaract and has given me countless bonds and memories and a place where I can belong.

Some of the special moments in Rotaract are the Installations ceremony of Rotaract Club of Lala Lajpatrai College, where I was adjudged as Beat Board of Director and in the succeeding year as Best Rotaractor. Along with that, 7th July, 2024 where I was awarded as Outstanding Vice President for the year.

Rotaract has been much more than just a club for me; it has become a second family. The friendships I've made here have turned into bonds that feel more like sibling relationships. These are the people who stand by me, support me, and make every moment in Mumbai special. My journey with Rotaract has given me the best times and memories I could have asked for in this city. It's incredible how a group of strangers can become such an integral part of your life, making you feel at home even in the hustle and bustle of Mumbai.

Aara night was special; I enjoyed it. Our 5th installation of the RCBMT board release was a special moment because I was part of it. And the most favorite moment is after the event, being appreciated by the president and the core team.

My special moment will be the upcoming opportunities to get to know Bhavika. We are friends since I was the BOD for RCLalas and with our first even we were called a great duo. I think this this what the president kept in mind while pairing us up with each other, that girl bold, thoughtful and passionate and we have already gotten closer to each other.

Honestly, Rotaractors, Rotarians, DCM, ZRR, and alumni from my club and others have greatly helped me change my perspective towards people and better understand their points of view without judgment. Joining this community was one of my best decisions, and I will always strive to stay connected with such wonderful people.

First and foremost, the installation ceremony was a highlight. I had the opportunity to interact with many people, both formally and informally, and made some great connections. Rotaract, especially Rotaract Club of Bombay Mid-Town, is undoubtedly one of the best places to build professional relationships that can positively impact your life in every possible way!

Everyone would love if they could've their one friend who has seen all phases of their life, witness their Rotaract phase too. Staying in the same building, same hometown to shifting Mumbai, joining the same Rotaract Club now!! Love how this 15 years of friendship has evolved and how Rotaract has made it even more stronger. Just the presence of her in every part of my life makes it even more beautiful!

If people were rain
I was drizzle she was a hurricane.
A journey with started with awkward smiles and even more awkward his has now turned into a bond
I know I will cherish for a long long time from thinking this girl is crazy to thinking this girl is crazy, but she's my crazy
Somewhere between "you make the JPEG, I'll make the message" and "last moc for the year" I found a shoulder lean on
When I am old and grey recounting my college days, there will always be one about secret smiles, relentless, banter, and the most ridiculous code names on this a rollercoaster of emotions and adventures,
I found a family I never knew I was searching for in Nitanshil!

Rotaract, who knew that the general body member who did nothing two years back is now Sergeant-At-Arms and Joint Secretary of the club. Well why not, how can someone ignore the warmth that the club gives. Cheekh, an event in which we raise voices against women trafficking, did it all. An event which made me love the club. An event where I found the ones I can annoy in the college, an event which made me apply for the pac position. One such instance was the time in practice we didn't do well, and to motivate us to do better, we shared our personal experiences which made everyone connected with each other And once announced as SAA and JT. Sec my PAC have been the people I rush to for any thing (even outside Rotaract) I need help for. They are just a call away? Absolutely not!! They are just a step away be it anything. The most stressful days, are swallowed by tastiest desserts, the happiest days are made happier with the hug. The journey that has begun would be incomplete without anyone of them. The only regret I have is that why didn't I meet these people before. Rotaract has given me a bunch of people whom I would never detach from. They are and would always be the people of whom I'll rant to my grandchildren.

From awkwardly meeting her as a teams member, not knowing what to say, and feeling so conscious that the only option was to run away, to now seeking her presence first thing in college, whether it be a 7:30 lecture or a 11:30 meeting, we grew up. We grew up and she made a version out of me that is a 1000 times better than what was there 2 years ago. We grew up and she made me realize that having juniors just might be a blessing in disguise, or a nuisance since I know there will come a time when I'll have to continue my journey without her snaps, but wherever we may end up, 5 or 10 years down the lane, I know that if something was happening in either of our lives, first I would call her, and she would call my name
